

BOBBY
“CHIHUAHUA MIX”
IN NEED OF A HOME!

BOBBY is a sweet, 4-5 year old, Chihuahua mix weighing approximately 12-14 lb. He had a rough start in life. First he survive the Parvo virus as a puppy, then the only family he knew so well surrendered him to the local pound when they move out of the country with the military. It's too bad he's been without a home because he has good energy, loves to play and gets along well with other dogs. He is used to be around cats and is currently in foster care where he is doing well at crate training as well as house training. He is a little shy with new people but quickly warms up and enjoys being social. He loves affection and is faithful to anyone who will show him love! He hasn't had a chance to be seen by many people because he gets very nervous and doesn't show well on the sidewalk adoptions. Therefore he's been kind of left behind. We are confident someone will rescue him and give him the home he so desperately needs. He is neutered, micro-chipped and up to date on shots.
